

ANNUAL FILTER PROMOTION
From January 1st to December 31st
for Collection Facilities registered with UOMA PE

As an appreciation for registering with UOMA PE as a Collection Facility, and to encourage you to increase your **filter** collections, UOMA PE has implemented a PROMOTION on filters.

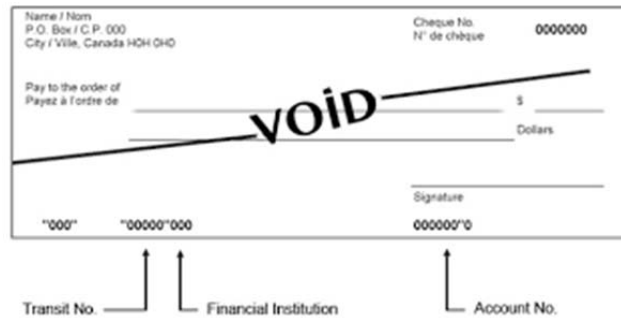

UOMA PE will pay Collection Facilities subsidies (RIs) based on the amount of filters (by weight) collected by UOMA PE's registered Collectors. **Claims must be submitted directly to UOMA PE**, as per the Collection Facilities preference, on either a quarterly, semi-annually or annual basis within thirty days of the chosen time frame, by completing the online claim form on our website at www.uoma-atlantic.com (Prince Edward Island) in the ***Collection Facilities** section, subsection ***Promotion on filters**. In any case, the report, including the month of December 2019 must be received by UOMA PE before January 30, 2020.

Applicable products	Used oil filters collected by UOMA PE registered Collectors
***Subsidies	\$0.20/kg of filters , paid directly to the Collection Facility upon UOMA PE's receipt of claim
<p>Subsidy claims must be accompanied by a waybill/receipt signed and provided by a UOMA PE registered Collector.</p> <p>Please take note that you can also send us your documents scanned, by email, at the following address : nathalie.telenis@soghu.ca.</p>	

*** Due to the difficulty of weighing a recycling bin, Collection Facilities using bins of 205 Liters or receptacles on wheels with either a 240 Liters or a 360 Liters capacity proceed with fixed rates that represent the average weights according to the container size multiplied by \$0.20/kg. The fixed rates are as follows: **\$20.00 per 205 Liters bin, \$28.00 per 240 Liters bin and \$34.00 per 360 Liters bin.**

There is no change in your collections. Continue to do business with the same Collector(s) and use the document(s) they provide to submit your claim according to your preferred schedule: Quarterly (3 months), bi-annually (6 months) or annually.

Furthermore, you can receive your payment by electronic funds transfer by adding a sample check to your claim form. It's an ecological reliable and faster way to receive your payment while saving time.

UOMA PE has been operational since April 2015 and pays financial incentives to UOMA PE registered Collectors for the collection of all products governed by the **Material Stewardship and Recycling Regulation – Environmental Protection Act**.

Many generators (over 29 garages and IWMCs) have registered as Collection Facilities; places where the general public and small enterprises can drop off used oil, used oil filters, used containers of oil and antifreeze (containers of 50 liters or less) as well as aerosol lubricant and aerosol brake cleaner containers governed by the Regulation, at no charge, during advertised hours. Please verify your coordinates in the Collection Facilities section of our website at www.uoma-atlantic.com (Prince Edward Island) by launching a search with your postal code or call us at 1-877-987-6448 ext. 226. If you find errors, please contact us immediately so we can correct them.

UOMA PE wishes to thank all for your genuine concern for the environment and your commercial vision.

For all additional questions or information, please contact Nathalie Télénis toll free at 1-877-987-6448 ext. 226.
